SAE International Announces Changes to Fellow Grade Nomination Criteria

WARRENDALE, Pa. (Feb. XX, 2017) – SAE International announces eligibility changes to nominate professionals for its highest membership honor, [SAE Fellow Grade](#).

The purpose of the changes is to reach out to a larger field of candidates with broader and more diverse backgrounds, thereby strengthening the prestigious Fellow grade.

Applications can now be considered for review by the SAE Fellows Committee if candidates have two (2) full years of membership completed at the time of application plus at least 10 years of volunteer that service that provided outstanding support for SAE activities.

Deadline to nominate someone for SAE Fellow is Sunday, July 1. For more information or to view the nomination information, [CLICK HERE](#).

The highest grade of membership, SAE Fellow Grade recognizes and honors members who have made a significant impact on society's mobility technology through leadership, research, and innovation. Established in 1975, the grade of Fellow is administered by the SAE Fellow Committee. Election to Fellow is an exceptional professional distinction bestowed on around 20 recipients each year. The SAE Board of Directors oversees the Fellows program and approves the nominations submitted by the Fellows Committee.

SAE International is a global association committed to being the ultimate knowledge source for the engineering profession. By uniting over 127,000 engineers and technical experts, we drive knowledge and expertise across a broad spectrum of industries. We act on two priorities: encouraging a lifetime of learning for mobility engineering professionals and setting the standards for industry engineering. We strive for a better world through the work of our charitable arm, the SAE Foundation, which helps fund programs like A World in Motion® and the Collegiate Design Series™.
